

## A Hospital-Discharge Planning Checklist

**For patients and their caregivers preparing to leave a hospital, nursing home, or other care setting**

~~During your stay, your doctor and the staff will work with you to plan for your discharge. You and your caregiver(s) – family member or friend who may be helping you – are important members of the planning team.~~

~~Below is a checklist of important things you and your caregiver(s) should know to prepare for discharge. Use this checklist early and often during your stay. Talk to your doctor and the staff (which could be a discharge planner, social worker, or nurse) about the items on the checklist.~~

~~Use the notes column to write down important information (like names and phone numbers). Skip any items that don't apply to you.~~

### ACTION ITEMS NOTES

#### 2. Your Health

- Ask about problems to watch for and what to do \_\_\_\_\_ about them. Write down a name and phone number \_\_\_\_\_ to call if you have problems.
- Use "My Drug List" (scroll down) to write down \_\_\_\_\_ your prescription drugs, over-the-counter drugs, vitamins, and herbal supplements. Review the list with the staff.
